

CENTER FOR HUMAN SERVICES RESEARCH  
UNIVERSITY AT ALBANY State University of New York

## Her Justice Evaluation

The Center for Human Services Research (CHSR) was contracted to serve as the lead evaluator on a grant awarded to [Her Justice](#) from the [New York Community Trust](#). The grant focused on determining the impact of services received on legal and extra-legal outcomes of low-income women seeking free legal services in family, divorce, and immigration law.

## EVALUATION & RESEARCH

CHSR measured the relative impact of legal services coordinated and provided by Her Justice to low-income women in the areas of family, divorce, and immigration law. The efficacy of Pro Se support and full legal services were compared. The analysis considered their relative impacts on both legal outcomes, such as custody decisions or child support amounts, and non-legal outcomes such as subsequent employment and satisfaction with the legal process.
