

Time Motion Study
Observer/Data Collector

Job Description

The Center for Human Services Research, University at Albany, is seeking a full-time, temporary Research Analyst to collect observational data of direct support and other staff working in certified residential settings for adults with intellectual and/or developmental disabilities. Employment to begin May 2017 and run until August 2017. Responsibilities include participating in training, traveling as part of a team (2-3 people) to the Office for People With Developmental Disabilities (OPWDD) certified residential sites across the state, observing staff interactions with residents following a prescribed observation and data collection protocol, entering observational data into a tablet, and interviewing clinical and non-clinical staff.

Minimum Qualifications

- High School Diploma, or equivalent
- 12 college credits from a college or university accredited by the USDOE
- Experience and/or course work in data collection, research methodology, or human services
- Ability to travel for several days at a time across New York State

Preferred Qualifications

- Bachelor's degree from a college or university accredited by a USDOE recognized accrediting organization in social sciences, research, or similar field
- Experience in collecting observational data
- Experience working with individuals with intellectual and/or developmental disabilities

To apply: Email resume to Erin Berical at eberical@albany.edu. Visit us at <http://www.albany.edu/chsr> for more information on the Center. Closing date for receipt of applications is open until filled. Positions are contingent upon funding.
