

CENTER FOR HUMAN SERVICES RESEARCH  
UNIVERSITY AT ALBANY State University of New York

## Greater Rochester Opioid Prevention

The Center for Human Services Research (CHSR) was awarded a grant by [The Greater Rochester Health Foundation](#) to conduct an evaluation to assess the implementation, impact, and effectiveness of an opioid prevention project in Genesee, Orleans, and Wyoming counties.

The Greater Rochester Health Foundation (GRHF) funded a collaborative program implemented and managed by the [Genesee/Orleans Council on Alcoholism and Substance Abuse \(GCASA\)](#) to improve follow up services for people who use opioids after overdose or other medical emergency.

## EVALUATION & RESEARCH

CHSR led a collaborative team including the Center for Addictions Research and an Albany Medical Center physician-research focused on evaluating and reporting the impact and effectiveness of this prevention program. The evaluation included a mixed methods process study and outcomes study that utilized both qualitative and quantitative data.
